

ID:	UC - 14
Title:	Request Supplies
Description:	Chef requests additional ingredients or supplies from inventory.
Primary Actor:	Chef / Kitchen Staff
Secondary Actor:	RMS, Manager
Preconditions:	Inventory system must be functional. (Find better wording hopefully)
Postconditions:	1. Request is sent to the manager for approval. 2. Stock is updated upon approval.
Generalization:	Request Supplies is a specialized case of inventory management.
Dependencies:	Requires tracking inventory to identify shortages.
Main Success Scenario:	1. Chef logs into RMS. 2. Selects "Request Supplies". 3. Choose required ingredients. 4. Request is sent to the manager.
Extensions or Alternate Flow:	If supplies are unavailable, the system alerts the chef.
Frequency of Use:	As needed
Status:	In Development
Owner:	Project Team
Priority:	Medium
