Title:	View Orders
Description:	The chef/kitchen staff views new orders to begin preparation.
Primary Actor:	Chef / Kitchen Staff
Secondary Actor:	RMS, Sales Clerk
Preconditions:	Order must be placed and processed.
Postconditions:	Chef sees order details and prepares food.
Generalization	View Orders is a specialized case of order monitoring.
Dependencies:	Requires orders to be placed before they can be viewed.
Main Success Scenario:	1. Chef logs into RMS. 2. Navigates to "View Orders". 3. Checks incoming orders. 4. Begin food preparation.
Extensions or Alternate Flow:	If an order is delayed, the system alerts the Chef / Kitchen Staff.
Frequency of Use:	Multiple times a day.
Status:	In Development
Owner	Project Team
Priority:	Medium
